PROJECTS

Brutkit

React UI-component Library

May 2025

- Developed a React library with nine controlled components.
- Stylized in a 'Brutalism' design theme, the components adhere to a more bold visual language without wholly sacrificing accessibility.
- Constructed to allow different variations of specific markup through passed props.
- Utility classes included

EDUCATION

Bachelor's Degree / Design Studies

San Jose State University

8/18 - 12/20, San Jose

- Concentration in Graphic Design
- Studied both digital and print media

SUMMARY

A front-end developer who enjoys building creative applications that are both functional and accessible. Seeking an opportunity to support the development of engaging projects with skillful developers. I'm most interested in expanding my knowledge and skillset by learning from the best in the industry.

SKILLS

- HTML5, CSS3, JavaScript, PHP, Bootstrap, React
- Adobe Illustrator, Adobe Photoshop, Adobe After Effects, Figma

SOFT SKILLS

- Effective Communicator, feedback-driven, adaptable, goal-oriented, eager learner.
