PROJECTS

Brutkit

React UI-component Library
May 2025

- Developed a React library with nine controlled components.
- Stylized in a 'Brutalism' design theme, the components adhere to a more bold visual language without wholly sacrificing accessibility.
- Constructed to allow different variations of specific markup through passed props.
- Utility classes included

CineRank

Movie tier list maker (SPA)
Sep 2025

- Using React, built a single page application hosted on **Cloudflare** that allows users to create their own tier list of movies by using data fetched from **The Movie Database** (TMDB).
- Developed a custom, all-in-one state management hook to handle the tier list editor's lifecycle. It functions like a reducer, managing both the history and actions available to the editor like undo/redo, and create/delete respectively.
- Implemented **React DnD** library to construct a sortable multi-container drag-and-drop system, allowing users to move items from different containers easily.
- Set up two primary serverless **Cloudflare** functions: one acting as the REST API for the application's data, and the other serving as the secure proxy to interface with TMDB.
- Integrated UI Framework (**Bootstrap**)

EDUCATION

Bachelor's Degree / Design Studies

San Jose State University
8/18 - 12/20, San Jose

- Concentration in Graphic Design
- Studied both digital and print media

SUMMARY

A front-end developer who enjoys building creative applications that are both functional and accessible. Seeking an opportunity to support the development of engaging projects with skillful developers. I'm most interested in expanding my knowledge and skillset by learning from the best in the industry.

SKILLS

- HTML5, CSS3/SASS, JavaScript, PHP, Bootstrap, VITE/React.JS
- Frontend Web development, UI Design, GIT, CI/CD deployment, REST API, CRUD, Custom Hooks (React)
- Cloudflare Pages, Google Gemini 2.5 Pro
- Adobe Illustrator, Adobe Photoshop, Adobe After Effects, Figma, Krita

SOFT SKILLS

- Effective Communicator, feedback-driven, adaptable, goal-oriented, eager learner.
